LOGSA is Responsive to the Full Spectrum of Warfighter Requirements

LOGSA Vision

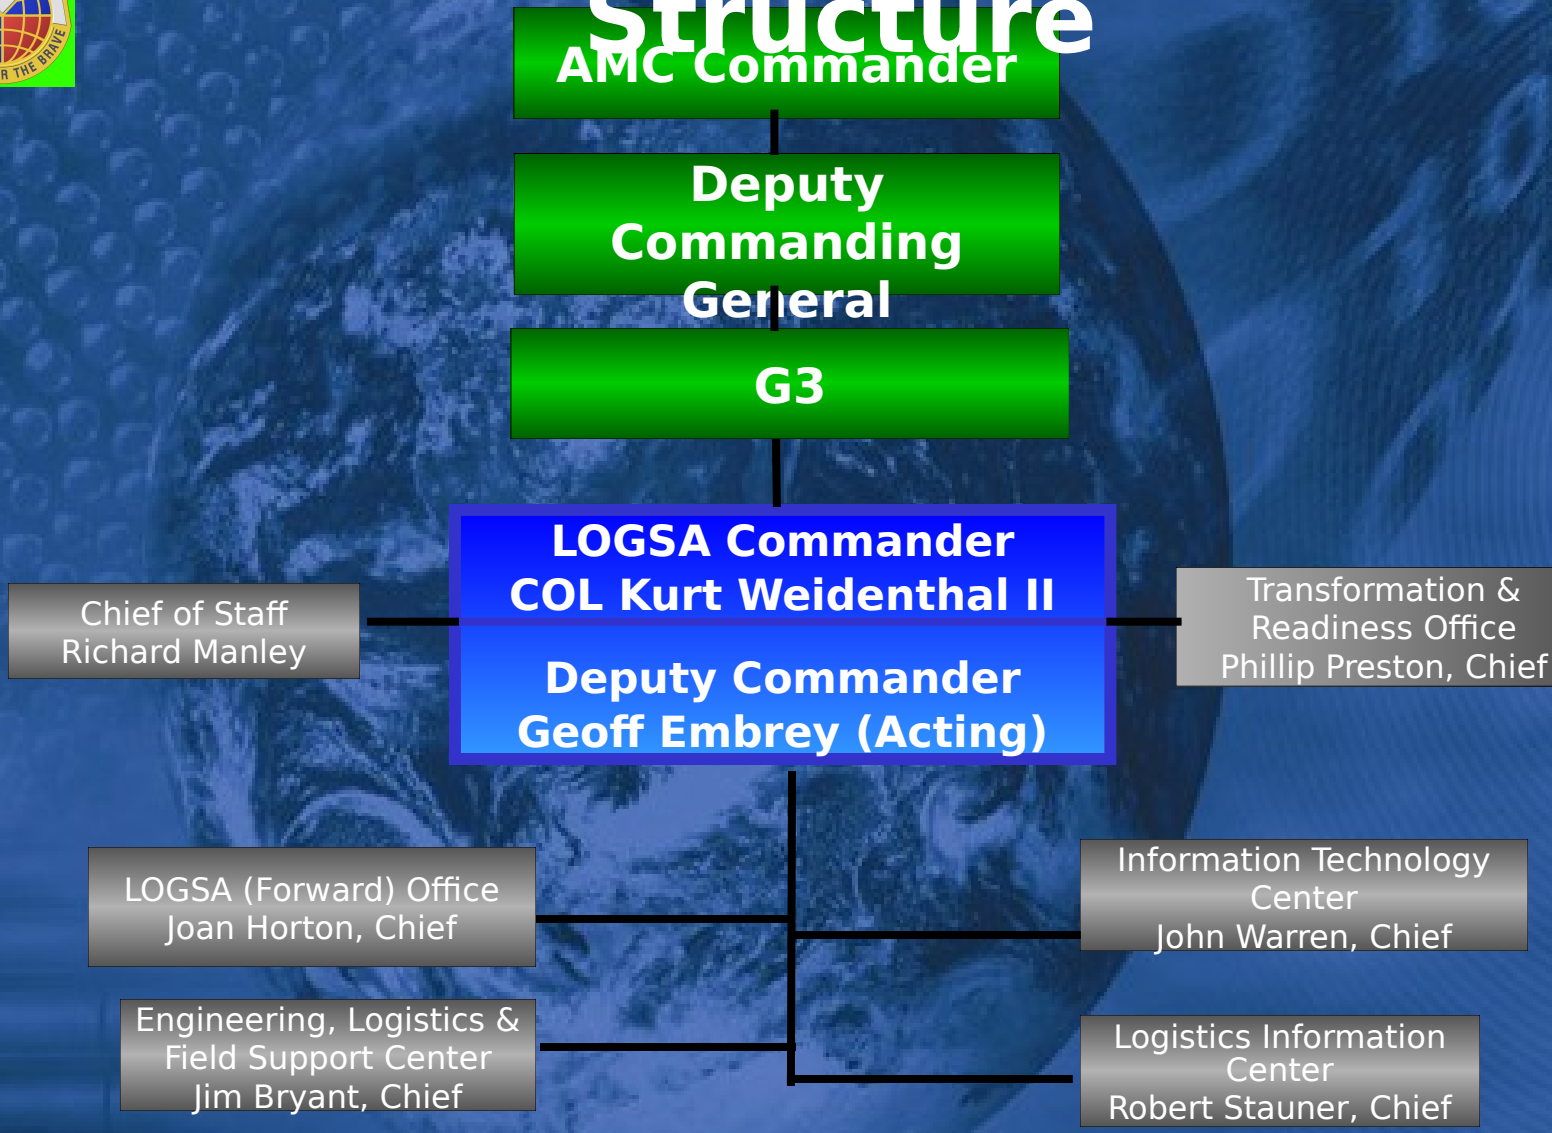
To be globally recognized as the integrator of logistics information… so responsive that our Armed Forces' Transformation, Readiness needs, and Warfighter success is assured.

LOGSA Mission

Empower Army logistics to meet the global challenges by providing logistics information and life-cycle support to the Warfighter. Integrate logistics information to provide asset visibility, readiness, and sustainment of the global and joint forces.

USAMC LOGSA--Supporting Warfighters Globally

LOGSA Command Structure



USAMC LOGSA--Supporting Warfighters Globally

Logistics Transformation Support

- **AMC Lead Responsibility**
  - Overhaul Army Oil Analysis Program
  - Submit Autopsy Reports to Program and Weapon System Managers

- **Supporting Role**
  - Automatic Identification Technology Tagging of Recoverables
  - Major Component Serial Number Tracking
  - Real Time Class IX Inventory
  - Near Real Time Maintenance Management
  - Stryker Vehicle Parts Consumption

Full Spectrum Logistics Support

LOGISTICS POWER PROJECTION… FROM THE TACTICAL TO THE NATIONAL LEVEL

USAMC LOGSA--Supporting Warfighters Globally

Supporting warfighters globally

"We USAMC LOGSA exist for one thing and one thing only—so we can strategically contribute to Warfighters being ready to fight and win any type of war. Our incredible capability to integrate valuable readiness data and provide it globally to every level, in any chain-of-command, will especially contribute to successful contingency operations/global engagement."

Kurt Weidenthal II
